

This week
 { 1-3 → JS interview Qs
 4-6 → HTML, CSS, JS → doc link

Local Storage

- ↳ allows you to save some data in your browser
- ↳ so observing our LS will be used to store the date
- ↳ LS does not expire

↳ LS does not have
 Name Key Value
 ↳ protocol → 50.00m
 ↳ 16.00m
 Name: "Abhishek"
 Local Storage
 boxX

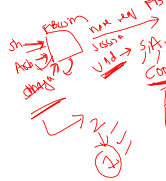

Session Storage

- ↳ storage exprs

↳ only you can tab browser

brauer
LS, SS

symmetrie
Abbildung

cookies very common

- ↳ difficult to use.
- ↳ limited use case
- ↳ low on space

HTTP is protocol
stateless
↓
cannot store user state
information

cookies

- ↳ can store client side + server side data
- ↳ key value pair
- ↳ data expiration control (10 min)

as time progresses, tech progresses → to make web interactive

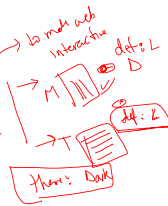

websites become more complex →

BS → SS → MS → DS

client side data

server side data
